
MEMORANDUM

TO: Mayor Patrick Collins, and City Council
FROM: TJ Barttelbort, Purchasing Manager 
DATE: April 19, 2023
SUBJECT: Consideration to Purchase between the City of Cheyenne, and High West Energy for installation of 3 Phase Power at the new Countryside & Whitney Fire Station

This is a Single Source purchase through High West Energy, therefore no bids were requested.

High West Energy is the only electrical utility company capable of providing electrical service to the new Fire Station at Countryside & Whitney, therefore, the new 3 Phase Power must be installed by High West Energy.

The total requested purchase amount is \$120,000.00.

Additional information is attached, provide by Chief Kopper.

Funding: 030-16-1640-41-43804 (2017 Special Purpose Option Tax)
032-16-1640-41-43804 (2021 Special Purpose Option Tax)

April 18, 2023

To: Mayor Patrick Collins
City Council

From: John Kopper
Fire Chief

Reference: New Fire Station (Countryside) Three Phase Power Conversion

Mayor Collins and Council Members,

1. The new site location at Countryside and Whitney requires three phase power for the construction project of the new fire station. Single phase power is already onsite, however, does not accommodate the electrical needs of the project.
2. High West Energy is the provider in that area and has provided a scope of work to convert the project to three phase power. High West will convert existing single phase power overhead to three phase overhead standards. New overhead lines will be run from Pershing and Whitney to the north approximately 2600 feet, ending at the south property line of the new fire station (see attached map). The line will be constructed to current National Electrical Safety Code (NESC) Standards.
3. Total cost of the project to run overhead three phase power to the property will be \$120,000.00. Funding for the project will be taken out of the 2017 and/or 2021 6th Penny Ballots for fire station construction. If you have any questions, please feel free to contact me. Thank you in advance for your consideration.

John B. Kopper

WORK REQUEST FORM

Description of Work: Cheyenne Fire, Countryside Fire Station, Three Phase Conversion
HWE W/O: 230303
Location: Whitney Road & Countryside Ave
Estimated Cost: \$120,000

Three Phase Conversion - Scope of Work

Beginning at a point 320' east of the intersection of East Pershing Ave and Whitney Road (see attached Exhibit A) High West Energy (HWE) will convert an existing single phase overhead to three phase overhead standards. The conversion will extend from the above mentioned starting point approximately 2600 feet north, ending at the south property line of the Cheyenne Fire Countryside Fire Station property. The converted line will be constructed to current National Electrical Safety Code (NESC) standards.

Estimated material and labor costs for this conversion project are \$120,000.

Please note that this scope of work does not include the pad mount transformer, underground cable, nor the riser pole that will serve the fire station directly. That work will be covered on a separate agreement/invoice.

I, John Kopper, Fire Chief, Cheyenne Fire Rescue, City of Cheyenne, has requested that the above described work be completed. The City of Cheyenne agrees to pay for the cost of completing this work. The above estimate shall be incrementally paid as the work is completed and in full within one (1) month when the work is completed in full. The actual cost shall be determined later, and I understand that I will be billed for any additional cost or refunded any excess already paid.
