ZONING: PUD- Planned Unit Development

RECOMMENDED MOTION:

Move to **approve** the rezoning Planned Unit Development- (PUD) of Lot 7B, Block One, Frontier Mall to CB-Community Business as shown in the attached zone change map, noting that the project meets the review criteria for approval.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.2.1 Zoning Map Amendment
- UDC Article 5
- PlanCheyenne

BACKGROUND:

This zone change application proposes changing the zoning from PUD- Planned Unit Development to CB-Community Business for 1.70 acres of land.

The proposed CB-Community Business zoning is intended to allow a commercial use of the land.

The land is currently unoccupied and vacant. The conversion of the PUD-Planned Unit Development to CB-Community Business will allow the applicant to conduct commercial business on the specific parcel of land, which has a future land use as CB-Community Business. The applicant is seeking this zone change due to parking and design standards.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning District	Land Use
Subject Site	CB-Community Business	PUD-Planned Unit Development	Vacant
North	CB-Community Business	CB-Community Business	Commercial; Auto Services, Services
South	CB-Community Business	PUD-Planned Unit Development	Commercial, Parking Lot
East	CB-Community Business	PUD-Planned Unit Development	Commercial, Retail Services
West	CB-Community Business	PUD-Planned Unit Development	Commercial, Retail Services

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Zoning Map Amendment, the Commission must make the following findings required in UDC 2.2.1.d. A detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.2.1.d.1)

PlanCheyenne encourages growth within the Urban Service Boundary and the maximization of existing infrastructure. This property is within the Urban Service Boundary, in an area with existing and thriving infrastructure.

The location is surrounded by three major streets (Prairie Ave to the north, Dell Range Blvd to the south, and Frontier Mall Dr to the east) which would encourage the development of CB-Community Business style uses in this area. PlanCheyenne encourages the flexibility to be responsive to market demands.

The property is currently zoned as PUD-Planned Unit Development, and the Future Land Use Designation for this property and the surrounding areas is CB-Community Business with a Community/Regional Activity Center. According to the comprehensive plan the optimal City zone for the subject property's future land use designation would be CB-Community Business which emphasizes a range of retail and office uses to serve neighborhoods, the community, region, and some align with designated Commercial/Regional Activity Centers. The zone change to CB-Community Business type uses to this property is in concordance with the general guide of the future land use map.

The policies of PlanCheyenne and the future land use zoning map are supportive of this proposed zone change. The future land use plan encourages CB-Community Business zoning at this general location.

The proposed zone change **complies** with review criterion 1.

2) The application is compatible with nearby property, specifically considering existing zoning, the Comprehensive Plan, and any other official plans and policies created under the guidance of that plan for these areas; (UDC 2.2.1.d.2)

Surrounding property is zoned PUD-Planned Unit Development to the east, west, and south. with future land use zones of CB-Community Business. To the north, existing infrastructure exists in the CB-Community Business Zone. The existing surrounding PUD-Planned Unit Development zones to the east, south, and west is the current zoning of the parcels, and has a future land use of CB-Community Business which fits the criteria of the comprehensive future land use plan. This location fits the description for CB-Community Business Zone located in conjunction with Community/Regional Activity Centers, as designated on the Future Land Use Plan

The proposed zone change for the subject property **complies** with review criterion 2.

3) The suitability of the subject property for development according to the standards and uses of the existing zoning district, compared to the suitability of the subject property for development according to the standards and uses of the proposed zoning district (UDC 2.2.1.d.3)

The current PUD-Planned Unit Development zone encourages a variety of commercial uses. The CB-Community Business zone allows all commercial uses that the PUD-Planned Unit Development zone offers but is specific to CB-Community Business that is intended for retail,

employment, service and civil use that may serve several residential neighborhoods or other districts in meeting daily needs, discretionary needs, or other business functions. The district regulations are designed to encourage these uses, while also protecting the abutting and nearby areas. The allowed uses for the PUD zone and CB zone are the same which is commercial business uses. The PUD parking standards do not require as much minimum parking whereas the UDC has maximum parking. Based upon the minimum parking, the location is unable to provide the designated parking they would like for this project. The PUD is silent on standard building design, which results in a default to UDC code 6.7. The CB zone utilizes UDC code 6.9 which has standards that are easier to meet than the standards listed in UDC code 6.7 for this type of development.

The proposed zone change **complies** with review criterion 3.

4) The ability of the subject property and surrounding vicinity to be developed according to the Subdivision Standards in Article 4 considering the proposed zoning (UDC 2.2.1.d.4)

Block sizes are typically based on the future land use designation, and that is not proposed to be changed with this application. Due to previous development patterns, there is minimal opportunity to modify infrastructure. Access will be available to this property via existing easements. No new access directly from this parcel to the streets would be allowed.

The proposed zone change for the subject property **complies** with review criterion 4.

5) The ability of the application to support the Intent and Applicability statements of the proposed zoning district and achieve the Design Objectives of any specific standards. (UDC 2.2.1.d.5)

The CB-Community Business District is intended for Retail, Employment, Service and Civic uses that may serve several residential neighborhoods or other districts in meeting daily needs, discretionary needs, or other business functions. The district regulations are designed to encourage these uses, while also protecting the abutting and nearby areas.

The development meets the intended requirements for the CB zone providing a commercial service that will serve several residential neighborhoods and other districts in the area aiding in daily needs, discretionary needs, and other business functions. The development is applicable to the CB zone due to its specific use as a commercial business. Surrounding the property is moderate and large-scale business uses, and a Community/Regional activity center. Due to these uses surrounding the property, the development use would be very applicable to the specific zone.

The building design for the development must follow UDC code 6.8 and 6.9 for the design standards. The development will be applicable to both of these UDC codes, and will be reviewed via the site plan phase.

Generally, the property of this nature in the CB zone would be anticipated to utilize the design standards of 6.9. However, the location is located near a Community/Regional Activity Center (Frontier Mall). Due to the location of this activity center, the City Council may elect to apply the Small-scale Mixed-use and Commercial Design Standards in Section 6.7(UDC) as a condition to the rezoning to the CB-Community Business District where it is located in an Activity Center designated in the Comprehensive Plan or a pedestrian oriented environment is desired.

The proposed zone change for the subject property **complies** with review criterion 5.

- 6) The ability of all potential future development to meet all applicable standards for development in the proposed zoning district, including other development options if any specific development proposed in association with the application is not executed after approval. (UDC 2.2.1.d.6)**

It is Staff's understanding the specific development proposed in concert with this rezoning is the construction of a restaurant. Should the proposed development not be executed after approval, there are several commercial uses, which would be eligible to be established at this location under this zoning. Limited mixed use or multifamily residential developments are also possible in the CB zone and may be appropriate at this location.

The proposed zone change **complies** with review criterion 6.

- 7) The review and recommendations of other reviewing bodies. (UDC 2.2.1.d.7)**

No reviewing agencies provided recommendations regarding the proposed zone change.

The proposed zone change for the subject property **complies** with review criterion 7.

- 8) Whether the application will harm the public health, safety, or general welfare. (UDC 2.2.1.d.8)**

City staff is satisfied that this proposed zone change would not adversely affect the public health, safety, or general welfare.

The proposed zone change for the subject property **complies** with review criterion 8.
