

MEMORANDUM

TO: Governing Body, City of Cheyenne
FROM: Renee Smith, Grants Manager
DATE: FEBRUARY 16, 2024
SUBJECT: RESOLUTION SUPPORTING THE EPA CLIMATE POLLUTION REDUCTION PLANNING GRANT

The City of Cheyenne has been awarded a U.S. Environmental Protection Agency Climate Pollution Reduction Grant for planning in the amount of \$1,000,000. Grant funds will support staffing and consultant services to develop a Priority Climate Action Plan (PCAP), a Greenhouse Gas Inventory, and a Comprehensive Climate Action Plan to support emission reductions, renewable energy initiatives, and other energy efficiencies for Cheyenne consumers. The CPRG Planning Grant and published PCAP allows the City of Cheyenne to pursue an EPA CPRG Implementation Grant for eligible projects, such as community solar.

This is formula grant through the Inflation Reduction Act of 2022 and the performance period of the grant award is 01/01/2024 to 06/30/2027.

Please let me know if you have specific questions about the CPRG program and this grant opportunity.

Respectfully,

Renee Smith
(307) 637-6285
rsmith@cheyennecity.org

RESOLUTION NO. _____

ENTITLED: "A RESOLUTION APPROVING THE ENVIRONMENTAL PROTECTION AGENCY CLIMATE POLLUTION REDUCTION PLANNING GRANT IN THE AMOUNT OF ONE MILLION DOLLARS TO PURSUE GREENHOUSE GAS REDUCTION PLANS AND INITIATIVES SUCH AS A COMMUNITY SOLAR PROJECT."

WHEREAS, the Environmental Protection Agency (EPA)'s Climate Pollution Reduction Grants (CPRG) program provides a total of five billion dollars (\$5,000,000,000) in grant funding to states, local governments, tribes, and territories to develop and implement ambitious plans for reducing greenhouse gas emissions and other harmful air pollution;

WHEREAS, Phase 1 of the CPRG program provides flexible support to states, local governments, tribes, and territories regardless of the status of their climate planning and implementation process;

WHEREAS, CPRG planning grant recipients can utilize funding to design climate action plans that incorporate a variety of measures to reduce Priority Climate Action Plan (PCAP) and Greenhouse (GHG) emissions from across six key sectors including electricity generation, industry, transportation, buildings, agriculture/natural and working lands, and waste management;

WHEREAS, as a condition of the one-million-dollar (\$1,000,000) Phase 1 CPRG program planning grant, the City of Cheyenne must submit a PCAP to the EPA by March 1, 2024;

WHEREAS, within two (2) years after receiving a Phase 1 CPRG planning grant, the City of Cheyenne must submit a Comprehensive Climate Action Plan (CCAP) and within four (4) years after receipt, the City must submit a Status Report;

WHEREAS, upon submitting a CPRG planning grant to develop its PCAP, the City of Cheyenne will be eligible to compete for a CPRG implementation grant in an amount between two million dollars (\$2,000,000) and five hundred million dollars (\$500,000,000) per individual grant;

WHEREAS, the Governing Body of the City of Cheyenne has identified investigating the feasibility of incorporating renewable energy systems, including a community solar project, as a City Council goal; and

WHEREAS, the City of Cheyenne is interested in better understanding its GHG emissions and wishes to support efforts to stimulate innovative technologies and practices that create cost saving and more sustainable efficiencies for Cheyenne residents to meet growing utility needs.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, that the Mayor of the City of Cheyenne is hereby designated as the authorized representative of the City to act on behalf of the Governing Body on all matters relating to the one-million-dollar (\$1,000,000) CPRG planning grant and is authorized to execute the grant agreement and to submit the PCAP, CCAP and Status Report, as wells as any other associated documents.

PRESENTED, READ, AND ADOPTED this ____ day of _____, 2024.

Patrick Collins, Mayor

(SEAL)

ATTEST:

Kristina F. Jones, City Clerk

BUDGET PERIOD 01/01/2024 - 06/30/2027	PROJECT PERIOD 01/01/2024 - 06/30/2027	TOTAL BUDGET PERIOD COST \$ 1,000,000.00	TOTAL PROJECT PERIOD COST \$ 1,000,000.00		
NOTICE OF AWARD Based on your Application dated 12/28/2023 including all modifications and amendments, the United States acting by and through the US Environmental Protection Agency (EPA) hereby awards \$ 1,000,000.00. EPA agrees to cost-share <u>100.00%</u> of all approved budget period costs incurred, up to and not exceeding total federal funding of \$ 1,000,000.00. Recipient's signature is not required on this agreement. The recipient demonstrates its commitment to carry out this award by either: 1) drawing down funds within 21 days after the EPA award or amendment mailing date; or 2) not filing a notice of disagreement with the award terms and conditions within 21 days after the EPA award or amendment mailing date. If the recipient disagrees with the terms and conditions specified in this award, the authorized representative of the recipient must furnish a notice of disagreement to the EPA Award Official within 21 days after the EPA award or amendment mailing date. In case of disagreement, and until the disagreement is resolved, the recipient should not draw down on the funds provided by this award/amendment, and any costs incurred by the recipient are at its own risk. This agreement is subject to applicable EPA regulatory and statutory provisions, all terms and conditions of this agreement and any attachments.

Attachment 1 - Project Description

The agreement provides funding under the Inflation Reduction Act (IRA) to the City of Cheyenne, Wyoming to develop a comprehensive, economy-wide climate mitigation plan or update an existing plan in collaboration with air pollution control districts, large and small municipalities statewide, and tribal governments that will support actions to reduce greenhouse gases (GHG) and harmful air pollutants and to conduct meaningful engagement with low-income and disadvantaged communities. The City of Cheyenne is leading the development and implementation of innovative strategies to reduce GHG emissions. The Cheyenne Metropolitan Statistical Area (MSA) has experienced an increase in flooding and has been affected by forest fires, which are both attributed to shifting weather patterns. In 2020, over 176,000 acres were burned in the Mullen Fire, threatening the city's watershed, releasing large quantities of GHG, and causing significant harm to numerous ecosystems. To address these challenges, the City of Cheyenne will lead the efforts to address the MSA's most pressing environmental difficulties, while also fostering positive economic development through innovative solutions and workforce development opportunities. Power generation, transportation, manufacturing, industrial, and renewables are the primary sectors to be addressed in the mitigation plans. In general, activities include the development, updating, and evaluation of plans to reduce climate pollution (i.e., to reduce GHG emissions and/or enhance carbon sinks). Specifically, the City of Cheyenne will create a comprehensive GHG emission inventory to develop GHG reduction measures, identify strategies to implement energy efficiency, and conduct outreach programs to enhance public awareness and participation. Three key deliverables will be produced and submitted over the course of the four-year program period, including: a Priority Climate Action Plan (PCAP), due March 1, 2024; a Comprehensive Climate Action Plan (CCAP), due two years from the date of the award; and a Status Report, due at the close of the grant period.

Expected outcomes include a PCAP and CCAP that identifies: tons of pollution (GHGs and co-pollutants) reduced over the lifetime of the measures; tons of pollution (GHGs and co-pollutants) reduced annually; and tons of pollution (GHGs and co-pollutants) reduced with respect to low-income and disadvantaged communities. Other expected outcomes include: improved ambient air quality and public health; increased public awareness; improved staff capacity; development of a City of Cheyenne Standing Committee on Sustainability; implementation of energy efficiency and other improvements to reduce operating costs; and positive economic development impacts.

The intended beneficiaries include all residents and visitors of the Cheyenne MSA, with a specific focus on low income and disadvantaged communities to promote environmental equity. The City of Cheyenne will proactively seek public engagement with the low income and Hispanic populations to strengthen relationships that invite dialogue and spark innovation. The City of Cheyenne will take active measures to engage these communities to increase involvement and create a comprehensive benefits analysis. City of Cheyenne anticipates \$15,000 in subawards, \$5,000 per year for years 1-3. Subawards will support and enhance project goals and deliverables and facilitate public outreach efforts. Cheyenne anticipates 1-2 subawards per year.

Administrative Conditions

National Administrative Terms and Conditions

General Terms and Conditions

The recipient agrees to comply with the current EPA general terms and conditions available at: <https://www.epa.gov/grants/epa-general-terms-and-conditions-effective-october-1-2023-or-later>.

These terms and conditions are in addition to the assurances and certifications made as a part of the award and the terms, conditions, or restrictions cited throughout the award.

The EPA repository for the general terms and conditions by year can be found at: <https://www.epa.gov/grants/grant-terms-and-conditions#general>.

A. Correspondence Condition

The terms and conditions of this agreement require the submittal of reports, specific requests for approval, or notifications to EPA. Unless otherwise noted, all such correspondence should be sent to the following email addresses:

- Federal Financial Reports (SF-425): rtpfc-grants@epa.gov and Grant Specialist, Jennifer Hale at hale.jennifer@epa.gov.
- MBE/WBE reports (EPA Form 5700-52A): Grant Specialist, Jennifer Hale at hale.jennifer@epa.gov.
- All other forms/certifications/assurances, Indirect Cost Rate Agreements, Requests for Extensions of the Budget and Project Period, Amendment Requests, Requests for other Prior Approvals, updates to recipient information (including email addresses, changes in contact information or changes in authorized representatives) and other notifications: Grant Specialist, Jennifer Hale at hale.jennifer@epa.gov.
- Quality Assurance documents, workplan revisions, equipment lists, programmatic reports and deliverables: Project Officer, Emily Bertram at Bertram.Emily@epa.gov.

B. Pre-Award Costs

In accordance with 2 CFR 1500.9, the recipient may charge otherwise allowable pre-award costs (both Federal and non-Federal matching shares) incurred from **January 1, 2024** to the actual award date provided that such costs were contained in the approved application and all costs are incurred within the approved budget period.

Programmatic Conditions

Climate Pollution Reduction Grants Specific Programmatic Terms and Conditions

A. PERFORMANCE REPORTING AND FINAL PERFORMANCE REPORT

Performance Reports – Content

In accordance with 2 CFR 200.329, the recipient agrees to submit performance reports that include brief information on each of the following areas: 1) A comparison of actual accomplishments to the outputs/outcomes established in the assistance agreement work plan for the period; 2) The reasons why established outputs/outcomes were not met; and 3) Additional pertinent information, including, when appropriate, analysis and explanation of cost overruns or high-unit costs.

Additionally, the recipient agrees to inform EPA as soon as problems, delays, or adverse conditions which will materially impair the ability to meet the outputs/outcomes specified in the assistance agreement work plan are known.

Performance Reports - Frequency

Quarterly performance reports are required to be submitted electronically to the EPA Project Officer within 30 calendar days after the reporting period (every three-month period). Quarterly reports are due according to the following schedule. If a due date falls on a weekend or holiday, the report will be due on the next business day. If a project start date falls within a defined reporting period, the recipient must report for that period by the given due date unless otherwise noted. This quarterly reporting schedule shall be repeated for the duration of the award agreement.

July 1 – September 30 Reporting Period: report due date October 30 (note, in year 1, this reporting period should begin at the project start date)

October 1 – December 31 Reporting Period: report due date January 30

January 1 – March 31 Reporting Period: report due date April 30

April 1 – June 30 Reporting Period: report due date July 30

The recipient must submit the final performance report no later than 120 calendar days after the end date of the period of performance.

Subaward Performance Reporting

The recipient must report on its subaward monitoring activities under 2 CFR 200.332(d). Examples of items that must be reported if the pass-through entity has the information available are:

1. Summaries of results of reviews of financial and programmatic reports.
2. Summaries of findings from site visits and/or desk reviews to ensure effective subrecipient performance.
3. Environmental results the subrecipient achieved.
4. Summaries of audit findings and related pass-through entity management decisions.
5. Actions the pass-through entity has taken to correct deficiencies such as those specified at 2 CFR 200.332(e), 2 CFR 200.208 and the 2 CFR Part 200.339 Remedies for Noncompliance.

B. DELIVERABLES AND REQUIREMENTS

Municipalities and Air Pollution Control Agencies that accept an award are required to produce and electronically submit the following three deliverables to EPA by the dates specified:

- 1.) By March 1, 2024, a Priority Climate Action Plan (PCAP), which is a narrative report that includes a focused list of near-term, high-priority, implementation ready measures to reduce Greenhouse Gas (GHG) pollution and an analysis of GHG emissions reductions that

would be achieved through implementation. These initial plans can focus on a specific sector or selected sectors, and do not need to comprehensively address all sources of GHG emissions and sinks in the jurisdiction. The PCAP must include: a GHG inventory; quantified GHG reduction measures; a low-income and disadvantaged communities benefits analysis; and a review of authority to implement.

2.) A Comprehensive Climate Action Plan (CCAP), due 2 years from the date of the award. The CCAP is a narrative report that should touch on all significant GHG sources/sinks and sectors present in a state or metropolitan area, establish near-term and long-term GHG emission reduction goals, and provide strategies and identify measures to achieve those goals. Each CCAP must include: a GHG inventory; GHG emissions projections; GHG reduction targets; quantified GHG reduction measures; a benefits analysis for the full geographic scope and population covered by the plan; a low-income and disadvantaged communities benefits analysis; a review of authority to implement; a plan to leverage other federal funding; and a workforce planning analysis.

3.) A Status Report, due at the closeout of the 4-year grant period. This report should include the implementation status of the quantified GHG reduction measures included in the CCAP; any relevant updated analyses or projections supporting CCAP implementation; and next steps and future budget/staffing needs to continue CCAP implementation.

Climate plans for metropolitan areas should also be developed with regional coordination as much as possible, and applicants are encouraged to coordinate with geographically proximate tribes as appropriate. In all cases, the lead organization for a state or metropolitan area PCAP funded through the CPRG program must make the PCAP available to other entities by March 1, 2024 for their use in developing an implementation grant application.

MSA lead organizations must involve stakeholder groups and the public in the process for developing the PCAP and CCAP. Potential stakeholders include urban, rural, and underserved or disadvantaged communities as well as the general public, governmental entities, federally recognized tribes, Port Authorities, labor organizations, community and faith-based organizations, and private sector and industry representatives.

C. Cybersecurity Condition

Cybersecurity Grant Condition for Other Recipients, Including Intertribal Consortia

(a) The recipient agrees that when collecting and managing environmental data under this assistance agreement, it will protect the data by following all applicable State or Tribal law cybersecurity requirements.

(b) (1) EPA must ensure that any connections between the recipient's network or information system and EPA networks used by the recipient to transfer data under this agreement, are secure. For purposes of this Section, a connection is defined as a dedicated persistent interface between an Agency IT system and an external IT system for the purpose of transferring information. Transitory, user-controlled connections such as website browsing are excluded from this definition.

If the recipient's connections as defined above do not go through the Environmental Information Exchange Network or EPA's Central Data Exchange, the recipient agrees to contact the EPA Project Officer (PO) no later than 90 days after the date of this award and work with the designated Regional/Headquarters Information Security Officer to ensure that the connections meet EPA security requirements, including entering into Interconnection Service Agreements as appropriate. This condition does not apply to manual entry of data by the recipient into systems operated and used by EPA's regulatory programs for the submission of reporting and/or compliance data.

(2) The recipient agrees that any subawards it makes under this agreement will require the subrecipient to comply with the requirements in (b)(1) if the subrecipient's network or information system is connected to EPA networks to transfer data to the Agency using systems other than the Environmental Information Exchange Network or EPA's Central Data Exchange. The recipient will be in compliance with this condition: by including this requirement in subaward agreements; and during subrecipient monitoring deemed necessary by the recipient under 2 CFR 200.332(d), by inquiring whether the subrecipient has contacted the EPA Project Officer. Nothing in this condition requires the recipient to contact the EPA Project Officer on behalf of a subrecipient or to be involved in the negotiation of an Interconnection Service Agreement between the subrecipient and EPA.

D. Competency Policy

Competency of Organizations Generating Environmental Measurement Data

In accordance with Agency Policy Directive Number FEM-2012-02, Policy to Assure the Competency of Organizations Generating Environmental Measurement Data under Agency-Funded Assistance Agreements, recipient agrees, by entering into this agreement, that it has demonstrated competency prior to award, or alternatively, where a pre-award demonstration of competency is not practicable, the recipient agrees to demonstrate competency prior to carrying out any activities under the award involving environmental information operations (*i.e.*, the collection, production, evaluation or use of environmental information and/or the design, construction, operation, or application of environmental technology). The recipient shall maintain competency for the duration of the agreement's period of performance, and this will be documented during the annual reporting process. To access the Policy and other information about the Policy,

visit http://www.epa.gov/fem/lab_comp.htm. A copy of the Policy is available directly at <https://www.epa.gov/measurements-modeling/documents-about-measurement-competency-under-assistance-agreements>, or a copy may be requested by contacting the EPA Project Officer for this award.

E. Public or Media Events

The Recipient agrees to notify the EPA Project Officer listed in this award document of public or media events related to activities accomplished as a result of this agreement, and provide the opportunity for attendance and participation by federal representatives with at least ten (10) working days' notice.

F. Geospatial Data Standards

All geospatial data created must be consistent with Federal Geographic Data Committee (FGDC) endorsed standards. Information on these standards may be found at <https://www.fgdc.gov/>.

G. Quality Assurance

1. A Quality Assurance Project Plan (QAPP) is a record of determinations made during planning by the organization of the data type, quality, and quantity necessary to meet project objectives and the quality assurance and quality control procedures, specifications, and documentation that the recipient will use to ensure the desired results. This quality assurance documentation requirement applies to all grants that involve environmental information operations (i.e., the collection, production, evaluation or use of environmental information and/or the design, construction, operation, or application of environmental technology).
2. To be approvable, the grant recipient must develop a QAPP or equivalent QA document that meets all requirements outlined in *EPA QA Project Plan Requirements*, QA/R-5. The term QAPP will be used hence forward in this grant QA Term and Condition (R8 QA T&C) to refer to the QAPP or equivalent QA document.
3. As applicable and in accordance with 2 CFR 1500.12, the recipient agrees to document in a QAPP, the quality assurance (QA), quality control (QC), and technical activities that must be implemented to ensure that the project objectives are met. Multiple QAPPs and/or a multi-year QAPPs may be prepared as directed in the Work Plan and by the EPA Project Officer.
4. Recipients implementing environmental information operations (defined in Section 1) within the scope of the assistance agreement must submit a QAPP to the EPA Project Officer and EPA QA reviewer for review and approval no later than 90 days prior to performing work that includes environmental information operations. Earlier submissions are welcome.
5. The QAPP shall be prepared for each project in accordance with (IAW) [EPA QA/R-5: EPA Requirements for Quality Assurance Project Plans](#). For each QAPP, complete the [Region 8 QA Document Review Crosswalk](#) (QAPP Review Crosswalk). In the QAPP Review Crosswalk the recipient shall identify the specific page number(s) and section(s) of the QAPP that addresses the corresponding required QAPP element in QA/R-5, including a detailed explanation for any elements considered not applicable to the grant. The recipient shall submit the completed crosswalk with the QAPP to the EPA Project Officer and EPA QA contact for review and approval. Each QAPP has a maximum period of performance of 5 years.
6. The recipient agrees to ensure that no environmental information operations (defined in Section 1) occur without a QAPP that is approved by the EPA Regional Quality Assurance Manager or their delegate, except under circumstances requiring immediate action to protect human health and the environment or operations conducted under police powers. In the case of this exception, QAPPs must be approved within 30 days of the recipient's first date responding to the incident.
7. For multi-year QAPPs, the recipient must review the current QAPP annually to reconfirm its suitability and effectiveness and its alignment with the grant's work plan. The recipient shall document the review using the [Region 8 QA Document Review Crosswalk](#) (QAPP Review Crosswalk). In the QAPP Review Crosswalk the recipient shall identify the specific page number(s) and section(s) of changes to the approved version of the QAPP and include a description of what changed and why in the crosswalk element's comment box. For multi-year QAPPs, the documented annual QAPP review results (using the QAPP Review Crosswalk) must be submitted to EPA Project Officer and QA reviewer annually, no later than 60 days prior to the anniversary date of EPA's approval of the QAPP as a new document. Significant changes to the project require the recipient to modify the QAPP and submit the updated QAPP as a new document as described in Sections 4-5. The recipient must submit the updated QAPP and completed [Region 8 QA Document Review Crosswalk](#) to the EPA Project Officer and QA reviewer for review and approval. Only after the revision has been approved shall the change be implemented.

H. Use of Logos

If the EPA logo is appearing along with logos from other participating entities on websites, outreach materials, or reports, it must **not** be prominently displayed to imply that any of the recipient or subrecipient's activities are being conducted by the EPA. Instead, the EPA logo should be accompanied with a statement indicating that City of Cheyenne received financial support from the EPA under an Assistance Agreement. More information is available at: <https://www.epa.gov/stylebook/using-epa-seal-and-logo#policy>.
