CITY OF CHEYENNE PLANNING COMMISSION
April 1, 2024
STAFF REPORT

FILE: PUDC-24-30 Sunrise Hills North Subdivision, 3rd Filing (Expedited Review)

REQUEST: A final plat creating 12 lots that include 12 single family unit residential lots on 2.08 acres of land.

LOCATION: West of intersection at Thomas Rd and Ridge Rd

APPLICANT: AVI (Cody Bruso)

OWNER: Pronghorn Construction LTD

ZONING: MR Medium Density Residential

FUTURE LAND USE: Urban Residential

PREPARED BY: Athen Moers, Planner

RECOMMENDED MOTION:

Move to **approve** the Sunrise Hills North Subdivision 3rd Filing Expedited Plat, advancing the Final Plat to the Governing Body with staff recommended exception.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.1.2 Preliminary Plat Approval
- UDC 2.1.3 Final Plat Approval
- UDC Article 4 Subdivisions
- UDC Article 5 Zoning Regulations
- PlanCheyenne

BACKGROUND:

The applicant is requesting approval of a preliminary plat for 2.08 acres of land. The subject property is vacant land, previously platted for single-family development on larger lots.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning	Land Use
Subject Site	Urban Residential	MR Medium Density Residential	Vacant
North	Urban Residential	AG Agricultural	Vacant
South	Urban Residential	MR	Single-family Detached Residential
East	Urban Transportation residential	MR	Single-family Detached Residential
West	Urban Residential	MR	Single-family Detached Residential

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Preliminary Plat, the Commission must make the following findings required in UDC 2.1.2.d – a detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.1.2.d.1)

The proposed project is to develop 12 single family unit residential lots. This development is in conformance with the principles and future land uses identified in PlanCheyenne. The property is within the Urban Service Boundary and has access to all utilities. The future land use map within PlanCheyenne identifies this area as developing with residential uses.

The application **complies** with this review criterion.

2) The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities. (UDC 2.1.2.d.2)

The proposed plat divides the land into 12 individual parcels. Surrounding development largely consists of single-family residential development on a variety of lot sizes.

The application **complies** with this review criterion.

3) The division of land meets the purposes, intent, and all applicable standards in Article 4. (UDC 2.1.2.d.3)

Community Facility Fees (4.2):

For fees based on acreage, the area of the plat is pro-rated to the nearest tenth of an acre. Lands reserved as unbuildable (for right-of-way, detention, parks, remainder lots, etc), are exempt from fees.

Land Acquisition Fee	\$700.00 (\$350 per acre)
Infrastructure Fee	\$700.00 (\$350 per acre)
Total Land Acquisition & Infrastructure Fees	\$1400.00

Land being replatted can credit fees paid for a previous plat toward those due. Park fees have not changed since this land was last platted. No fees are due with this platting action.

Per UDC Section 4.2.5, Table 4-2, the Land Acquisition & Infrastructure fee are payable at the time of the signing of the final plat.

Per UDC Section 4.2.5, Table 4-2, Enhancement Fees are payable at the issuance of a building permit for each structure.

Residential Enhancement Fee	\$400 per dwelling unit
Commercial Enhancement Fee	\$1,100 per acre

Transportation Network (4.3):

The owner is requesting a waiver for the transportation network as the lot adjoins Thomas Rd to the south and Ridge Rd to the east. The property is in the middle of an already developed area of Cheyenne that has existing connections to other roads and no space for additional roads. A previous plat for this location received an exception previously to allow the larger than standard block at this location. This exception should be renewed with this platting action.

Open Space (4.4):

The owner is requesting a waiver for the requirement of an open space narrative due to meeting criteria 4.4.2.b.3.

Required Improvements (4.5):

This plat appears to be able to provide all required utilities to the lots within this development.

Public Safety Fees (4.6):

Public Safety Fees are required at the time of construction of any commercial building or residential building on any of the proposed lots. Per UDC Section 4.6.3.b, Public Safety Fees are payable at the issuance of a building permit for each structure.

The application **complies** with this review criterion.

- 4) **Any phasing proposed in the application is clearly indicated and demonstrates a logical and well-planned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned. (UDC 2.1.2.d.4)**

No specific phasing is proposed with this project.

Review criterion **not applicable**.

- 5) **The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts. (UDC 2.1.2.d.5)**

Drainage:

A drainage study was submitted and reviewed. There are no concerns with the study provided.

Traffic:

A traffic study was submitted and reviewed. There are no concerns with the study provided.

The application **complies** with this review criterion.

- 6) **Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements. (UDC 2.1.2.d.6)**

This plat is proposing 12 buildable lots. They will be used for single family unit residential developments at the proposed size. All lots proposed for development are buildable lots in this zone district.

The application **complies** with this review criterion.

- 7) **All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance. (UDC 2.1.2.d.7)**

There are no non-buildable lots for the proposed project.

Review criterion **not applicable**.

- 8) **The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property. (UDC 2.1.2.d.8)**

This plat is adjacent to a large undeveloped parcel to the north. There is potential for this plat to create a road to the north to allow development of the property to the north. Surrounding development largely consists of single-family residential development on a variety of lot sizes. This plat will not create any undue influence on existing development. The plat proposes 12 buildable lots, and has access points to the south at Thomas Rd and to the east at Ridge Rd.

The application **complies** with this review criterion.

9) The application is not harmful to the public health, safety, and welfare. (UDC 2.1.2.d.9)

City staff is satisfied that this proposed plat would not adversely affect the public health, safety, or general welfare.

The application **complies** with this review criterion.

10) Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description. (UDC 2.1.2.d.10)

No remainder lots for the proposed project.

The application **complies** with this review criterion.

11) The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan. (UDC 2.1.3.d.1)

The Final Plat submitted with the application is substantially similar to the Preliminary Plat submitted.

The application **complies** with this review criterion.

12) The application meets any conditions or modifications of the approved preliminary plat. (UDC 2.1.3.d.2)

The application **complies** with this review criterion.

13) The application meets the purposes, intent, and applicable standards of Article 4. (UDC 2.1.3.d.3)

As a concurrent Preliminary and Final Plat application, this Final Plat review criterion is covered by the equivalent Preliminary Plat review criterion (subsection 3 above).

The application **complies** with this review criterion.

CONFORMANCE WITH APPLICABLE PLANS:

The project is located in an area covered by the following plans:

- PlanCheyenne

Conformance with PlanCheyenne is covered by review criterion 1.

STAFF REVIEW:

Through the review process, all comments received regarding the following issues.

1. Utility easement dimensions
2. Title block name and changes
3. Exact coordinate location
4. Pronghorn Construction Signatures and Notaries regarding affidavit
5. Drainage easement width.

The applicant has received and is coordinating updates.

CONCLUSION:

Staff analysis is that the application meets the review criteria and therefore recommends approval of the expedited plat application with an exception.

ALTERNATIVES:

1. Recommend approval of the expedited preliminary plat, forwarding the Final Plat to the Governing Body.
2. Recommend approval of the preliminary plat with conditions and that a final plat addressing the conditions of approval be prepared and presented to the Governing Body.
3. Recommend approval of the preliminary plat as submitted by the applicant and forward the preliminary plat to the Governing Body.
4. Recommend approval of the preliminary plat subject to staff's recommended conditions and forward the preliminary plat to the Governing Body.
5. Recommend denial of the preliminary plat based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
6. Postpone the project until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

The Planning Commission may modify staff's recommended conditions, delete conditions, add conditions, or decide contrary to staff's recommendation. In the event conditions are modified, the conditions shall relate to applicable review criteria. In the event that the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

STAFF RECOMMENDATION:

Staff recommends approval of the expedited Plat, advancing the Final Plat to the Governing Body, with the following exception:

1. The following exception is to be granted: exception to maximum block size.
