Cheyenne City Council

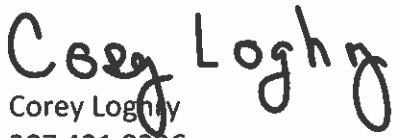

Dear Esteemed Council Members:

I come before you to respectfully request approval to add fenced sidewalk seating on the north side of 18th Street on the site of Paris West Restaurant. This sidewalk seating will be added in between Warren and Central Avenues as depicted on the attached drawing. This seating will comply with all Planning, Compliance, Licensing and Liquor division requirements. The purpose is to allow Paris West Restaurant and Bar to serve food and alcohol and non alcohol beverages outdoors.

In addition, I also request approval to install sidewalk seating in The Downtowner's private parking lot in the southwest corner as depicted in the attached drawing. The purpose is to allow Paris West Restaurant and Bar to serve food and alcohol and non alcohol beverages outdoors in a second space.

Both requests were previously approved separately by Council in 2022 and 2023. This request combines each action in an attempt to provide as many options for outdoor service as possible.

Thank you for your consideration.

Corey Loghry
