

RESOLUTION NO. _____

ENTITLED: "A RESOLUTION EXPRESSING THE APPRECIATION OF THE GOVERNING BODY FOR THE WORK OF DIRECTOR NEMECEK, DIRECTOR SANCHEZ, AND THEIR RESPECTIVE DEPARTMENTS, ON CORRECTING DEFICIENCIES AND IMPROVING AND MAINTAINING CERTAIN EXTERIOR COMPONENTS OF THE MUNICIPAL BUILDING."

WHEREAS, on March 23, 2024, a Resolution was introduced for consideration by the Governing Body, which required the submittal of a report by the Public Works Department analyzing the best avenue for correcting certain deficiencies and improving and maintaining the west entryway to the Municipal Building;

WHEREAS, the deficiencies and areas for improvement identified in the Resolution included necessary maintenance on exterior soffits and bricks and portions of the exterior pavement around the main entrance which were failing. The Resolution further noted security concerns regarding the ingress and egress from the main entrance due to the age and current state of the doors at the entryway and needed improvements to the building's landscaping around the main entrance;

WHEREAS, upon introduction, the Resolution was referred to the Public Services Committee for further consideration. At the April 2, 2024, committee meeting, Vicki Nemecek, Director of the Public Works Department, testified to the issues identified in the Resolution;

WHEREAS, Director Nemecek stated that her department was taking affirmative action in response to the concerns raised in the Resolution, including plans to paint rusted soffits, coordination with an appropriate architectural firm to address the needed maintenance on the failing exterior brick and obtaining a quote for related work on brick suffering from efflorescence;

WHEREAS, regarding the failing exterior pavement, Director Nemecek stated that this concern was to be addressed as part of the department's Public Works Improvement Project, which will address deteriorating concrete and asphalt at several Public Works city facilities. Director Nemecek further stated that the project design had been finalized and once bid, the pavement issues around the main entrance should be addressed by late summer or fall of 2024;

WHEREAS, regarding the concerns surrounding the doors at the main entryway, Director Nemecek stated work had already begun to remove and replace the faulty doors;

WHEREAS, regarding the needed improvements to the building's landscaping, Director Nemecek stated she was coordinating with Jason Sanchez, Director of the Community Recreation and Events Department, to address and remediate both the building's landscaping and irrigation system. She noted that a complete remediation would require a significant financial investment, but Director Sanchez stated his department would work, within budgetary constraints, to improve the problem areas; and

WHEREAS, based on the testimony provided at the Public Services Committee, the committee members voted not to advance further consideration of the Resolution because city staff had adequately responded to the concerns stated therein.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, that the Governing Body appreciates the due attention given by Director Nemecek, Director Sanchez, and their respective departments, to the concerns raised by the Resolution;

BE IT FURTHER RESOLVED, that the Governing Body appreciates the urgency with which Director Nemecek, Director Sanchez, and their respective departments, treated these concerns and their work conducted to address the concerns in a meaningful way; and

BE IT FINALLY RESOLVED, that the Governing Body seeks to more formally recognize Director Nemecek, Director Sanchez, and their respective departments, through the adoption of the present Resolution to thank everyone for their continued work on the municipal building, consistent with the previously identified concerns, to enhance and maintain public perception and experience.

PRESENTED, READ AND ADOPTED this _____ day of _____, 2024.

Patrick Collins, Mayor

(SEAL)

ATTEST:

Kristina F. Jones, City Clerk
