MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council
From: Connor White, Planner II
Subject: PUDC-24-107 / Scenic Development, 5th Filing / Final Plat
Date: September 9, 2024

Background:

The item for consideration is a *Final Plat*. This is approved by Resolution.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral September 9, 2024
- Public Services Committee September 17, 2024
- Final consideration September 23, 2024

Planning Commission Recommendation:

The Planning Commission heard this item at their September 3, 2024 meeting and voted to recommend the Governing Body approve this application with the following exception and conditions:

1. Exception to block size.
2. Conditions:
 - a. Correct the dedication for names and formatting on the plat.
 - b. Dedicate the existing street adjacent to this development as shown in the current configuration of Connect 2045 or submit an update to Connect 2045 to reflect the changes in the street network for Section 20 as proposed.
 - c. Provide a pedestrian easement along the east side of the plat.

The Planning Commission Staff report is attached. Planning commissions recommended exception, and conditions are different than what is within the staff report.

RESOLUTION NO. _____

ENTITLED: "A RESOLUTION AUTHORIZING THE MAYOR AND THE CITY CLERK TO SIGN A FINAL PLAT FOR SCENIC DEVELOPMENT, 5TH FILING, CITY OF CHEYENNE, LARAMIE COUNTY, WYOMING (LOCATED WEST OF CONVERSE AVENUE AND NORTH OF DELL RANGE BOULEVARD)."

WHEREAS, Kipling Sheppard and Jarom Johnson have subdivided said land in accordance with the statutes in such cases made and provided;

WHEREAS, Kipling Sheppard and Jarom Johnson, the owners of the above-described land, has caused a subdivision plat of said land to be made, acknowledged, and certified, particularly describing the lots, blocks, easements, and rights-of-way; and

WHEREAS, the above-described subdivision plat has been presented to the City of Cheyenne Planning Commission for consideration; the Planning Commission has recommended that said plat be approved by the Governing Body; and the plat has been duly executed by the Development Office.

NOW, THEREFORE BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, THAT the subdivision described as Scenic Development, 5th Filing, Cheyenne, Wyoming, be and the same hereby is approved and confirmed as presented, and that the Mayor and the City Clerk be and are hereby authorized, empowered, and directed to execute said plat, when Community Facility Fees have been paid in full.

PRESENTED, READ AND ADOPTED this _____ day of _____, 2024.

Patrick Collins, Mayor

A COMMUNITY OF CHOICE

Planning and Development Department

2101 O'Neil Avenue, Suite 202, Cheyenne WY 82001
(Phone) 307-637-6282 (Fax) 307-637-6366

MEMO

To: Planning Commission Members
From: Connor White, Planner II
Subject: PUDC-24-107 / Scenic Development, 5th Filing / Expedited Plat
Date: September 3, 2024

At the August 5, 2024 Planning Commission meeting, the Planning Commission voted to postpone the Scenic Development, 5th Filing Expedited Plat due to concerns relating to BOPU easements, the transportation network for the area, the block size, and the pedestrian network.

Staff has not received word on the location or provision of BOPU easements from BOPU or the applicant. Staff has talked with the MPO and pedestrian networks are not reviewed nor are they within their scope at this time (unless the complete streets concept is being evaluated for an area). Staff is still recommending the exception to block size due to the existing conditions of development in this area. At this time, Staff has not received an update to the transportation network for this area.

Should Planning Commission still feel that an update to the transportation network is necessary for Final Plat approval, alternative motions could be made. The Planning Commission could approve only the Preliminary Plat (with conditions) – instead of the expedited plat, or the Planning Commission could postpone the item again. Should Planning Commission feel that the update is not needed at this time, the original recommendation in the staff report can be used.

Alternative Motion options:

Option 1:

Staff recommends approval of the Preliminary Plat to the Governing Body with the following exception and conditions:

1. Exception:
 - a. Exception to block size.
2. Conditions:
 - a. Provide BOPU easements over any facilities requiring them, to the satisfaction of the BOPU.
 - b. Correct the dedication for names and formatting.
 - c. Plat the existing streets adjacent to this development as shown in the current configuration of Connect 2045 or submit an update to Connect 2045 to reflect the changes in the street network for Section 20 as proposed.

Option 2:

Staff recommends postponement of the expedited plat to the October 7th, 2024 Planning Commission Meeting.

CITY OF CHEYENNE PLANNING COMMISSION

AUGUST 5, 2024

STAFF REPORT

FILE: PUDC-24-107: Scenic Development, 5th Filing (Expedited Review)

REQUEST: Combined 3 Lots into 1 Lot.

LOCATION: North of Dell Range Boulevard and west of Converse Avenue

APPLICANT: Kelly Hafner

OWNER: Kipling Sheppard and WPP Thomas Ranch, LLC

ZONING: County A-1 (Proposed to be NR-3 Neighborhood Residential – High Density.

PURPOSE: A plat creating one Lot for multifamily development.

PREPARED BY: Connor White, Planner II

RECOMMENDED MOTION:

Move to **approve** the Scenic Development, 5th Filing Expedited Preliminary Plat, advancing the Final Plat to the Governing Body with staff recommended exceptions conditions.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.1.2 Preliminary Plat Approval
- UDC 2.1.3 Final Plat Approval
- UDC Article 4 Subdivisions
- UDC Article 5 Zoning Regulations
- PlanCheyenne

BACKGROUND:

The applicant is requesting approval of a preliminary plat for roughly 8.80 acres of land. The proposed plat would combine 3 Lots into 1 Lot for multifamily development. This plat is accompanying an annexation and a zoning map amendment.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning	Land Use
Subject Site	Mixed-use Commercial / Urban Residential	County A-1	Vacant / Agriculture
North	Urban Residential	County A-1	Vacant / Agriculture
South	Mixed-use Commercial	County A-1	Vacant / Agriculture
East	Mixed-use Commercial / Urban Residential	NR-3 Neighborhood Residential High-density	Multifamily
West	Mixed-use Commercial / Urban Residential	County A-1	Vacant / Agriculture

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Preliminary Plat, the Commission must make the following findings required in UDC 2.1.2.d – a detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.1.2.d.1)

On the future land use map found in PlanCheyenne, the subject land has been designated as Mixed-use Commercial / Urban Residential. The Mixed-Use Commercial Emphasis category encompasses existing and future developments, many of which align with activity centers. This category includes a wide variety of land uses and activities, focused primarily on commercial activities, but also including other employment, public, and residential uses. The Urban Residential designation encourages a range of more intensive residential uses, although the intent is not to change existing stable neighborhoods. The existing neighborhood has a mix of

housing types and densities, and the proposed development fits within the range of the existing neighborhood, while providing a different housing option.

Foundation 1 of PlanCheyenne encourages community growth. This development is in response to market demands and is within the Urban Service Boundary. The development patterns proposed by this plat are compatible with the designations found on the future land use map.

Connect 2045 has a road extending northward from the Cut-off Road Rue Terre intersection going northward toward the west edge of the property. The Master Transportation network for this area is currently being reviewed by the Metropolitan Planning Organization, City Engineer's Office and the property owners within the area. Once the new network is determined, Connect 2024 will need to be updated.

The application **complies** with this review criterion, with conditions.

- 2) The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities. (UDC 2.1.2.d.2)**

The proposed lot is to allow for multifamily development similar to the development to the east. All multifamily buildings will be under one ownership. The plat also extends E Carlson to allow it to continue further west or connect into a new road.

The application **complies** with this review criterion.

- 3) The division of land meets the purposes, intent, and all applicable standards in Article 4. (UDC 2.1.2.d.3)**

Community Facility Fees (4.2):

For fees based on acreage, the area of the plat is pro-rated to the nearest tenth of an acre. Lands reserved as unbuildable (for right-of-way, detention, parks, remainder lots, etc), are exempt from fees.

Land Acquisition Fee	\$3,080 (\$350 per acre)
Infrastructure Fee	\$3,080 (\$350 per acre)
Total Land Acquisition & Infrastructure Fees	\$6,160

Per UDC Section 4.2.5, Table 4-2, the Land Acquisition & Infrastructure fees are payable at the time of the signing of the final plat.

Per UDC Section 4.2.5, Table 4-2, Enhancement Fees are payable at the issuance of a building permit for each structure.

Residential Enhancement Fee \$400 per dwelling unit

Transportation Network (4.3):

This plat proposes extending E Carlson to the edge of the plat. Connect 2045 has multiple roads running through Section 20. Connectivity is currently lacking in this area. Connect 2045 has a road extending northward from the Cut-off Road Rue Terre intersection going northward toward the west edge of the property. If this alignment is the optimal alignment for the street network, this plat should dedicate at least a ½ street along the western edge. However, The Master Transportation network for this area is currently being reviewed by

the Metropolitan Planning Organization, City Engineer's Office and the property owners within the area.

The current block is excessively sized compared to regulations for the area. Even if a street were located on the edge of this development heading to the closest possible connection point to the south, the block perimeter would be over 2 miles in length, more than 3 times the maximum allowed by the UDC. Due to these existing conditions, an exception to block size is recommended.

There is a proposal by this developer and Sam's Club to the south to create a pedestrian connection from an earlier phase of this multifamily residential subdivision to the commercial properties to the south. If built, the connection would greatly reduce the perimeter for pedestrians and cyclists.

Open Space (4.4):

Open space is required at 750sqft per unit or 8% of the gross development area, whichever is less. Due to the nature of the proposed development pattern, open space will be taken care of with future development actions.

Required Improvements (4.5):

This plat appears to be able to provide all required utilities to the lot within this development. Easements are not provided for BOPU utilities, these easements need to be provided to the satisfaction of the BOPU. Easements are provided to other utilities.

Public Safety Fees (4.6):

Public Safety Fees are required at the time of construction of any residential building on the proposed lot. Per UDC Section 4.6.3.b, Public Safety Fees are payable at the issuance of a building permit for each structure.

The application **complies** with this review criterion, with conditions.

- 4) Any phasing proposed in the application is clearly indicated and demonstrates a logical and well-planned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned. (UDC 2.1.2.d.4)**

No specific phasing is proposed with this project.

Review criterion **not applicable**.

- 5) The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts. (UDC 2.1.2.d.5)**

Drainage:

A drainage memo was provided showing compliance with original study for the area. There were no concerns with the memo provided.

Traffic:

A waiver for the traffic study was provided. The Engineering Department has accepted the waiver for this Plat but has stated that future development actions will require additional TIS information/updates regarding Phase 2 of the development.

The application **complies** with this review criterion.

- 6) Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements. (UDC 2.1.2.d.6)**

The proposed application occurs in concert with a proposal to zone the land NR-3 Neighborhood Residential – High Density. The NR-3 zone is intended primarily for high-density, urban residential uses with consistent neighborhood character. The NR-3 zone allows multifamily development as a use by right. The proposed lot type would be MD1.

The application **complies** with this review criterion.

- 7) All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance. (UDC 2.1.2.d.7)**

All Lots are proposed to be buildable Lots.

The application **complies** with this review criterion.

- 8) The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property. (UDC 2.1.2.d.8)**

The street network in this area would generally require a street within this plat boundary, which would be dedicated with this plat. Additions to the street network would facilitate surrounding development. Staffs understanding is that there are ongoing discussions with landowners to rearrange the street network in this area. This plat will not otherwise create any undue influence on existing or potential development.

The application **complies** with this review criterion, with conditions.

- 9) The application is not harmful to the public health, safety, and welfare. (UDC 2.1.2.d.9)**

With a resolution of the street network issue, City staff is satisfied that this proposed plat would not adversely affect the public health, safety, or general welfare.

The application **complies** with this review criterion.

- 10) Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description. (UDC 2.1.2.d.10)**

Remainder lots are not proposed with this plat.

The application **complies** with this review criterion.

11) The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan. (UDC 2.1.3.d.1)

The Final Plat submitted with the application is substantially similar to the Preliminary Plat submitted.

The application **complies** with this review criterion.

12) The application meets any conditions or modifications of the approved preliminary plat. (UDC 2.1.3.d.2)

Through the review process and application of the Preliminary Plat, Staff recommends minor corrections as conditions to the plat. These corrections should be resolved prior to the final plat being recorded.

The application **complies** with this review criterion, with conditions.

13) The application meets the purposes, intent, and applicable standards of Article 4. (UDC 2.1.3.d.3)

As a concurrent Preliminary and Final Plat application, this Final Plat review criterion is covered by the equivalent Preliminary Plat review criterion (subsection 3 above).

The application **complies** with this review criterion.

CONFORMANCE WITH APPLICABLE PLANS:

The project is located in an area covered by the following plans:

- PlanCheyenne
- Dell Range/Section 20 Corridor Study

Conformance with PlanCheyenne is covered by review criterion 1.

The Dell Range Boulevard Corridor Study Phase II – Section 20 plan used as its starting point the “2040 Roadway Vision” map in the Cheyenne Area Master Transportation Plan, City of Cheyenne Version, adopted April 2014. This network was revisited and became the alignment shown in the Connect 2045 plan. The main difference was the removal of Melton Street as a major street. This plan still showed an anticipated north-south street near the western edge of this plat.

STAFF REVIEW:

Through the review process, comments were received regarding the following issues:

1. Minor clerical corrections.
2. Utility and easement correction.

CONCLUSION:

Staff analysis is that the application meets the review criteria and therefore recommends approval of the expedited plat application as submitted by the applicant with exceptions and conditions.

ALTERNATIVES:

1. Recommend approval of the expedited preliminary plat, forwarding the Final Plat to the Governing Body.
2. Recommend approval of the preliminary plat with conditions and that a final plat addressing the conditions of approval be prepared and presented to the Governing Body.
3. Recommend approval of the preliminary plat as submitted by the applicant and forward the preliminary plat to the Governing Body.
4. Recommend approval of the preliminary plat subject to staff's recommended conditions and forward the preliminary plat to the Governing Body.
5. Recommend denial of the preliminary plat based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
6. Postpone the project until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

The Planning Commission may modify staff's recommended conditions, delete conditions, add conditions, or decide contrary to staff's recommendation. In the event conditions are modified, the conditions shall relate to applicable review criteria. In the event that the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

STAFF RECOMMENDATION:

Staff recommends approval of the expedited Preliminary Plat, advancing the Final Plat to the Governing Body with the following exception and conditions:

1. Exception:
 - a. Exception to block size.
2. Prior to approval:
 - a. Provide BOPU easements over any facilities requiring them, to the satisfaction of the BOPU.
3. Prior to recording:
 - a. Correct the dedication for names and formatting.
 - b. Connect 2045 be updated to reflect the changes in the street network for Section 20.

Application Information

This application has a deadline. The deadline is the second Wednesday of the month.
Application Schedule.

An expedited review is when both a preliminary and final plat are submitted to the Planning Commission together. To be eligible for expedited review the preliminary plat shall contain no significant planning, design, and engineering issues. Upon determination by staff, the applicant may submit a preliminary and final plat to the Planning Commission.*

☒

I acknowledge the that Expedited status is not guaranteed.*

Park Fees are due at time of signing of the final plat mylar (see UDC 4.2.5). I acknowledge that this plat may be required to pay plat-level Park Fees.*

Pre-application Meeting Date

05/29/2024

Public Improvements are required with platting  actions. Please select the option that best demonstrates your intent for the public streets and other infrastructure adjacent to or within the plat boundary.*

Owner(s) (or developers) behind the plat application will construct the needed infrastructure.

Review Criteria

The following review criteria are found in the UDC regarding a Preliminary Plat. Please acknowledge the proposed plat meets each review criterion by checking the box.

The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan (2.1.2.d.1).*

The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities (2.1.2.d.2).*

The division of land meets the purposes, intent, and all applicable standards in Article 4 (2.1.2.d.3).*

Any phasing proposed in the application is clearly indicated and demonstrates a logical and wellplanned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned (2.1.2.d.4).*

The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts (2.1.2.d.5).*

Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in site design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements (2.1.2.d.6).*

All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance (2.1.2.d.7).*

The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property (2.1.2.d.8).*

The application is not harmful to the public health, safety, and welfare (2.1.2.d.9).*

Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description (2.1.2.d.10).*

The following review criteria are found in the UDC regarding a Final Plat. Please acknowledge the proposed plat meets each review criterion by checking the box.

The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan (2.1.3.d.1).*

The application meets any conditions or modifications of the approved preliminary plat (2.1.3.d.2). (Not applicable at time of application for an expedited plat)

The application meets the purposes, intent, and applicable standards of Article 4 (2.1.3.d.3).*

Certification

I hereby certify that I am the owner, applicant, or agent named herein and that I have familiarized myself with the rules and regulations with respect to the filing of this application and that the foregoing statements and answers contained on this application and accompanying documents are true and accurate to the best of my knowledge.*
