CITY OF CHEYENNE PLANNING COMMISSION SEPTEMBER 3, 2024 STAFF REPORT

FILE: PUDC-24-124: Adiamo Subdivision Second Filing (Expedited Review)

REQUEST: Vacate an alley and combine it with 5 Lots into 1 Lot.

LOCATION: Southeast of the intersection of W 19th St and O'Neil Avenue.

APPLICANT: AVI PC

OWNER: Nineteenth and O'Neil LLC and Andiamo307 LLC

ZONING: CBD Central Business District

PURPOSE: A plat creating one Lot for multifamily development.

PREPARED BY: Connor White, Planner II

RECOMMENDED MOTION:

Move to **approve** the Andiamo Subdivision Second Filing Expedited Preliminary Plat, advancing the Final Plat to the Governing Body with staff recommended conditions.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.1.2 Preliminary Plat Approval
- UDC 2.1.3 Final Plat Approval
- UDC Article 4 Subdivisions
- UDC Article 5 Zoning Regulations
- PlanCheyenne

BACKGROUND:

The applicant is requesting approval of a preliminary plat for roughly 1.05 acres of land. The proposed plat would combine 5 Lots into 1 Lot for multifamily development. A conditional use for Urban Loft development was approved by the Board of Adjustment on July 18, 2024.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning	Land Use
Subject Site	Central Business District	CBD Central Business District	Vacant / Storage Garage
North	Mixed-use Commercial	CBD / MUB Mixed-use Business	Restaurant / Brewery
South	Central Business District	CBD	Commercial / Offices
East	Central Business District	CBD	Day care / Bank
West	Central Business District / Public	CBD	Commercial / Parking Lot

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Preliminary Plat, the Commission must make the following findings required in UDC 2.1.2.d – a detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.1.2.d.1)

On the future land use map found in PlanCheyenne, the subject land has been designated as Central Business District. The Central Business District (CBD) encompasses Downtown Cheyenne and functions as the community's core business and civic area. Primary uses are intended for a variety of commercial businesses and civic uses. Business uses are generally smaller in scale and not dependent on direct vehicular access. Residential and office uses are encouraged on upper floors in the Downtown core, and as free-standing uses at the Downtown fringe.

Foundation 1 of PlanCheyenne encourages community growth. This development is in response to market demands and is within the Urban Service Boundary. The development patterns proposed by this plat are compatible with the designations found on the future land use map.

Foundation 7 of PlanCheyenne supports the use of existing infrastructure and timely provision of services (including emergency and education services). This development is proposed in an area which has largely existing infrastructure and limited expansion of infrastructure is necessary.

The application **complies** with this review criterion.

2) The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities. (UDC 2.1.2.d.2)

The proposed lot is to allow for multifamily development. This lot is on the fringe of the downtown and will take underutilized and vacant lots and create additional housing within walking distance of the downtown. The proposed lot size is similar to other lots that already exist within the area.

The application **complies** with this review criterion.

3) The division of land meets the purposes, intent, and all applicable standards in Article 4. (UDC 2.1.2.d.3)

Community Facility Fees (4.2):

For fees based on acreage, the area of the plat is pro-rated to the nearest tenth of an acre. Lands reserved as unbuildable (for right-of-way, detention, parks, remainder lots, etc), are exempt from fees.

Land Acquisition Fee	\$385 (\$350 per acre)
Infrastructure Fee	\$385 (\$350 per acre)
Total Land Acquisition & Infrastructure Fees	\$770.00

Per UDC Section 4.2.5, Table 4-2, the Land Acquisition & Infrastructure fees are payable at the time of the signing of the final plat.

Per UDC Section 4.2.5, Table 4-2, Enhancement Fees are payable at the issuance of a building permit for each structure.

Residential Enhancement Fee \$400 per dwelling unit

Transportation Network (4.3):

This plat is occurring within an area of the community which has been previously developed. The current block layout and street network is well established and meets current code requirements. While this plat does propose vacating a portion of the existing alley, the vacation would not have an adverse effect on connectivity in the area. A letter from all utilities within the alley signing off on the vacation will be needed prior to approval.

Open Space (4.4):

Open space is required 8% of the building footprint for lots 40,000 square feet or more. Due to the nature of the proposed development pattern, open space will be taken care of with future development actions.

Required Improvements (4.5):

This plat appears to be able to provide all required utilities to the lot within this development. Utilities exist within the adjacent rights-of-way. A letter from all utilities within the alley signing off on the vacation will be needed prior to approval.

Public Safety Fees (4.6):

Public Safety Fees are required at the time of construction of any residential building on the proposed lot. Per UDC Section 4.6.3.b, Public Safety Fees are payable at the issuance of a building permit for each structure.

The application **complies** with this review criterion, with conditions.

- 4) **Any phasing proposed in the application is clearly indicated and demonstrates a logical and well-planned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned. (UDC 2.1.2.d.4)**

No specific phasing is proposed with this project.

Review criterion **not applicable**.

- 5) **The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts. (UDC 2.1.2.d.5)**

Drainage:

A drainage worksheet was provided. Engineering reviewed the worksheet and will require further information during the site plan.

Traffic:

A traffic worksheet was provided, and the Engineering Department has accepted what was provided.

The application **complies** with this review criterion.

- 6) **Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements. (UDC 2.1.2.d.6)**

The proposed Lot is a buildable lot within the CBD zone. The CBD zone allows for 100% lot coverage and 0-foot setbacks to all lot lines.

The application **complies** with this review criterion.

- 7) All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance. (UDC 2.1.2.d.7)**

All Lots are proposed to be buildable Lots.

The application **complies** with this review criterion.

- 8) The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property. (UDC 2.1.2.d.8)**

This plat will not create any undue influence on existing or potential development.

The application **complies** with this review criterion.

- 9) The application is not harmful to the public health, safety, and welfare. (UDC 2.1.2.d.9)**

City staff is satisfied that this proposed plat would not adversely affect the public health, safety, or general welfare.

The application **complies** with this review criterion.

- 10) Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description. (UDC 2.1.2.d.10)**

Remainder lots are not proposed with this plat.

The application **complies** with this review criterion.

- 11) The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan. (UDC 2.1.3.d.1)**

The Final Plat submitted with the application is substantially similar to the Preliminary Plat submitted.

The application **complies** with this review criterion.

- 12) The application meets any conditions or modifications of the approved preliminary plat. (UDC 2.1.3.d.2)**

Through the review process and application of the Preliminary Plat, Staff recommends conditions be placed on the plat for prior approval by the governing body and prior to recording.

The application **complies** with this review criterion, with conditions.

13) The application meets the purposes, intent, and applicable standards of Article 4. (UDC 2.1.3.d.3)

As a concurrent Preliminary and Final Plat application, this Final Plat review criterion is covered by the equivalent Preliminary Plat review criterion (subsection 3 above).

The application **complies** with this review criterion.

CONFORMANCE WITH APPLICABLE PLANS:

The project is located in an area covered by the following plans:

- PlanCheyenne

Conformance with PlanCheyenne is covered by review criterion 1.

STAFF REVIEW:

Through the review process, comments were received regarding the following issues:

1. Minor clerical corrections.
2. Utility usage of the alley proposed to be vacated.

CONCLUSION:

Staff analysis is that the application meets the review criteria and therefore recommends approval of the expedited plat application as submitted by the applicant with conditions.

ALTERNATIVES:

1. Recommend approval of the expedited preliminary plat, forwarding the Final Plat to the Governing Body.
2. Recommend approval of the preliminary plat with conditions and that a final plat addressing the conditions of approval be prepared and presented to the Governing Body.
3. Recommend approval of the preliminary plat as submitted by the applicant and forward the preliminary plat to the Governing Body.
4. Recommend approval of the preliminary plat subject to staff's recommended conditions and forward the preliminary plat to the Governing Body.
5. Recommend denial of the preliminary plat based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
6. Postpone the project until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

The Planning Commission may modify staff's recommended conditions, delete conditions, add conditions, or decide contrary to staff's recommendation. In the event conditions are modified, the conditions shall relate to applicable review criteria. In the event that the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

STAFF RECOMMENDATION:

Staff recommends approval of the expedited Preliminary Plat, advancing the Final Plat to the Governing Body with the following condition:

1. Prior to Governing Body approval, a letter with all utilities signing off on the vacation of the alley be provided.
2. Prior to recording, have the land ownership and the owners listed on the face of the plat match.
