MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council
From: Connor White, Planner II
Subject: PUDC-24-143 / VOANR Cheyenne East / Final Plat
Date: October 14, 2024

Background:

The item for consideration is a *Final Plat*. This is approved by Resolution.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral October 14, 2024
- Public Services Committee October 22, 2024
- Final consideration October 28, 2024

Planning Commission Recommendation:

The Planning Commission heard this item at their October 7, 2024 meeting and voted to recommend the Governing Body approve this application.

The Planning Commission Staff report is attached.

Attachments:

1. Resolution
2. Final Map
3. Planning Commission Staff Report

RESOLUTION NO. _____

ENTITLED: "A RESOLUTION AUTHORIZING THE MAYOR AND THE CITY CLERK TO SIGN A FINAL PLAT FOR VOANR CHEYENNE EAST, CITY OF CHEYENNE, LARAMIE COUNTY, WYOMING (LOCATED BETWEEN MAXWELL AVENUE, SEYMOUR AVENUE, EAST 26TH STREET AND EAST 25TH STREET)."

WHEREAS, Volunteers of America Northern Rockies and the State of Wyoming have subdivided said land in accordance with the statutes in such cases made and provided;

WHEREAS, Volunteers of America Northern Rockies and the State of Wyoming, the owners of the above-described land, has caused a subdivision plat of said land to be made, acknowledged, and certified, particularly describing the lots, blocks, easements, and rights-of-way; and

WHEREAS, the above-described subdivision plat has been presented to the City of Cheyenne Planning Commission for consideration; the Planning Commission has recommended that said plat be approved by the Governing Body; and, the plat has been duly executed by the Development Office.

NOW, THEREFORE BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, THAT the subdivision described as VOANR Cheyenne East, Cheyenne, Wyoming, be and the same hereby is approved and confirmed as presented, and that the Mayor and the City Clerk be and are hereby authorized, empowered, and directed to execute said plat, when Community Facility Fees have been paid in full.

PRESENTED, READ AND ADOPTED this _____ day of _____, 2024.

Patrick Collins, Mayor

CITY OF CHEYENNE PLANNING COMMISSION
OCTOBER 7, 2024
STAFF REPORT

FILE: PUDC-24-143: VOANR Cheyenne East (Expedited Review)

REQUEST: Vacate an alley and combine the alley and eight platted lots into one lot.

LOCATION: Between Maxwell Avenue, Seymour Avenue, East 26th Street and E 25th Street.

APPLICANT: Shane Hansen, Steil Surveying

OWNER: State of Wyoming and Volunteers of America Northern Rockies

ZONING: MUB Mixed-use Business

PURPOSE: A plat creating one lot for the current development.

PREPARED BY: Connor White, Planner II

RECOMMENDED MOTION:

Move to **approve** the VOANR Cheyenne East Expedited Preliminary Plat, advancing the Final Plat to the Governing Body.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.1.2 Preliminary Plat Approval
- UDC 2.1.3 Final Plat Approval
- UDC Article 4 Subdivisions
- UDC Article 5 Zoning Regulations
- PlanCheyenne

BACKGROUND:

The applicant is requesting approval of a preliminary plat for roughly 1.7 acres of land. The proposed plat would vacate the existing alley and create one lot.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning	Land Use
Subject Site	Public and Urban Residential	MUB Mixed-use Business	Assisted Living Facility / Office
North	Urban Residential	MR Medium-density Residential	Single-family Residential
South	Urban Residential	MUB	Warehouse / Limited Industrial
East	Public	P Public	Cemetery
West	Urban Residential	MR / PUD Planned Unit Development	Single-family Residential

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Preliminary Plat, the Commission must make the following findings required in UDC 2.1.2.d – a detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.1.2.d.1)

On the future land use map found in PlanCheyenne, the subject land has been designated as Public on the north end and Urban Residential on the south end. The Urban Residential category includes many of the Cheyenne Area's existing neighborhoods, as well as planned future neighborhoods that will connect to City utilities. The Public and Quasi-Public category encompasses areas related to governmental and other community-based services and activities, like educational facilities and other institutions. Many of these areas are already developed, and future Public and Quasi-Public areas will need to be coordinated with the City, County, and their partner organizations and service providers as necessary.

Foundation 1 of PlanCheyenne encourages community growth. This development is in response to market demands and is within the Urban Service Boundary. The development patterns proposed by this plat are compatible with the designations found on the future land use map.

Foundation 7 of PlanCheyenne supports the use of existing infrastructure and timely provision of services (including emergency and education services). This development is proposed in an area which has largely existing infrastructure and limited expansion of infrastructure is necessary.

This plat is mainly to combine the lots for ownership purposes and for the development of the southern part of the lot.

The application **complies** with this review criterion.

2) The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities. (UDC 2.1.2.d.2)

The proposed plat combines an entire block into a single lot which contains the development of a single owner. It is Staff's understanding that the northern half of the property will change ownership prior to the recording of the plat. The plat does not affect the surrounding streets or utilities in the area.

The application **complies** with this review criterion.

3) The division of land meets the purposes, intent, and all applicable standards in Article 4. (UDC 2.1.2.d.3)

Community Facility Fees (4.2):

For fees based on acreage, the area of the plat is pro-rated to the nearest tenth of an acre. Lands reserved as unbuildable (for right-of-way, detention, parks, remainder lots, etc), are exempt from fees.

Land Acquisition Fee	\$595 (\$350 per acre)
Infrastructure Fee	\$595 (\$350 per acre)
Total Land Acquisition & Infrastructure Fees	\$1,190.00

Per UDC Section 4.2.5, Table 4-2, the Land Acquisition & Infrastructure fees are payable at the time of the signing of the final plat.

Per UDC Section 4.2.5, Table 4-2, Enhancement Fees are payable at the issuance of a building permit for each structure.

Transportation Network (4.3):

This plat is occurring within an area of the community which has been previously developed. The current block layout and street network is well established and meets current code requirements. While this plat does propose vacating the existing alley, the vacation would not have an adverse effect on connectivity in the area.

Open Space (4.4):

Open space is required 8% of the building footprint for lots 40,000 square feet or more. Due to the nature of the proposed development pattern, open space will be taken care of with other development actions. A site plan has been submitted for the southern parcel meeting site-specific open space requirements.

Required Improvements (4.5):

This plat appears to be able to provide all required utilities to the lot within this development. Utilities exist within the adjacent rights-of-way.

Public Safety Fees (4.6):

Public Safety Fees are required at the time of construction of any building on the proposed lot. Per UDC Section 4.6.3.b, Public Safety Fees are payable at the issuance of a building permit for each structure.

The application **complies** with this review criterion.

- 4) **Any phasing proposed in the application is clearly indicated and demonstrates a logical and well-planned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned. (UDC 2.1.2.d.4)**

No specific phasing is proposed with this project.

Review criterion **not applicable**.

- 5) **The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts. (UDC 2.1.2.d.5)**

Drainage:

A drainage worksheet was provided, and the Engineering Department has accepted what was provided.

Traffic:

A traffic worksheet was provided, and the Engineering Department has accepted what was provided.

The application **complies** with this review criterion.

- 6) **Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements. (UDC 2.1.2.d.6)**

The proposed Lot is a buildable lot within the MUB zone. Half the lot is already developed and the other half is currently being developed. The vacation of the alley is not strictly necessary for the development of the southern half.

The application **complies** with this review criterion.

- 7) All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance. (UDC 2.1.2.d.7)**

All Lots are proposed to be buildable Lots.

The application **complies** with this review criterion.

- 8) The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property. (UDC 2.1.2.d.8)**

This plat will not create any undue influence on existing or potential development.

The application **complies** with this review criterion.

- 9) The application is not harmful to the public health, safety, and welfare. (UDC 2.1.2.d.9)**

City staff is satisfied that this proposed plat would not adversely affect the public health, safety, or general welfare.

The application **complies** with this review criterion.

- 10) Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description. (UDC 2.1.2.d.10)**

Remainder lots are not proposed with this plat.

The application **complies** with this review criterion.

- 11) The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan. (UDC 2.1.3.d.1)**

The Final Plat submitted with the application is substantially similar to the Preliminary Plat submitted.

The application **complies** with this review criterion.

- 12) The application meets any conditions or modifications of the approved preliminary plat. (UDC 2.1.3.d.2)**

Through the review process and application of the Preliminary Plat, Staff provided feedback on requirements regarding a two-lot development versus a one-lot development. After reviewing the options, the applicant modified the proposal to create one lot instead of the originally-

submitted two-lot subdivision. Any potential staff-recommended conditions have been resolved with the final plat.

The application **complies** with this review criterion.

13) The application meets the purposes, intent, and applicable standards of Article 4. (UDC 2.1.3.d.3)

As a concurrent Preliminary and Final Plat application, this Final Plat review criterion is covered by the equivalent Preliminary Plat review criterion (subsection 3 above).

The application **complies** with this review criterion.

CONFORMANCE WITH APPLICABLE PLANS:

The project is located in an area covered by the following plans:

- PlanCheyenne

Conformance with PlanCheyenne is covered by review criterion 1.

STAFF REVIEW:

Through the review process, comments were received regarding the following issues:

1. Minor clerical corrections.
2. The analysis of requirements of a two-lot subdivision versus a one-lot subdivision (after reviewing the options and associated requirements, the applicant chose to utilize the one-lot option).

CONCLUSION:

Staff analysis is that the application meets the review criteria and therefore recommends approval of the expedited plat application.

ALTERNATIVES:

1. Recommend approval of the expedited preliminary plat, forwarding the Final Plat to the Governing Body.
2. Recommend approval of the preliminary plat with conditions and that a final plat addressing the conditions of approval be prepared and presented to the Governing Body.
3. Recommend approval of the preliminary plat as submitted by the applicant and forward the preliminary plat to the Governing Body.
4. Recommend approval of the preliminary plat subject to staff's recommended conditions and forward the preliminary plat to the Governing Body.
5. Recommend denial of the preliminary plat based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
6. Postpone the project until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

The Planning Commission may modify staff's recommended conditions, delete conditions, add conditions, or decide contrary to staff's recommendation. In the event conditions are modified, the conditions shall relate to applicable review criteria. In the event that the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

STAFF RECOMMENDATION:

Staff recommends approval of the expedited Preliminary Plat, advancing the Final Plat to the Governing Body.

Park Fees are due at time of signing of the final plat mylar (see UDC 4.2.5). I acknowledge that this plat may be required to pay plat-level Park Fees.*

Public Improvements are required with platting ? actions. Please select the option that best demonstrates your intent for the public streets and other infrastructure adjacent to or within the plat boundary.*

All necessary infrastructure is currently in-place and built to the current standards.

Review Criteria

The following review criteria are found in the UDC regarding a Preliminary Plat. Please acknowledge the proposed plat meets each review criterion by checking the box.

The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan (2.1.2.d.1).*

The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities (2.1.2.d.2).*

The division of land meets the purposes, intent, and all applicable standards in Article 4 (2.1.2.d.3).*

Any phasing proposed in the application is clearly indicated and demonstrates a logical and wellplanned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned (2.1.2.d.4).*

The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts (2.1.2.d.5).*

Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in site design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements (2.1.2.d.6).*

All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance (2.1.2.d.7).*

The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property (2.1.2.d.8).*

The application is not harmful to the public health, safety, and welfare (2.1.2.d.9).*

Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description (2.1.2.d.10).*

The following review criteria are found in the UDC regarding a Final Plat. Please acknowledge the proposed plat meets each review criterion by checking the box.

The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan (2.1.3.d.1).*

The application meets any conditions or modifications of the approved preliminary plat (2.1.3.d.2). (Not applicable at time of application for an expedited plat)

The application meets the purposes, intent, and applicable standards of Article 4 (2.1.3.d.3).*

Certification

I hereby certify that I am the owner, applicant, or agent named herein and that I have familiarized myself with the rules and regulations with respect to the filing of this application and that the foregoing statements and answers contained on this application and accompanying documents are true and accurate to the best of my knowledge.*

I, Jeffrey B. Jones, A Professional Land Surveyor in the State of Wyoming, for and on behalf of Stell Surveying Services, LLC, hereby state, to the best of my knowledge, information and belief, that this map was prepared from field notes taken during an actual survey made by me or under my direct supervision; and that this map correctly shows the results of said survey and that the monuments found or set are as shown.

A detailed street map of the area around Lakeview Cemetery. The map shows a grid of streets including Duane, Alexander, Duff, Brown, and others. A shaded rectangular area is labeled 'SITE' with an arrow pointing to it. The area is bounded by Duane St to the north, Alexander St to the south, Brown St to the west, and Duff St to the east. The map also shows Lakeview Cemetery, Mt. Olivet Cemetery, and various other streets like Russell, Persimmon, Semoran, and Haxwell. A north arrow is at the bottom, and a scale bar indicates 1/4 mile.
