This letter is in regards to requesting a 1-year extension to the parked status of our liquor license.

We devotedly owned and operated Scooters Bar from October 2015 to 2024. It became our whole lives and we had good community support and a regular clientele. In 2023, we listed the Scooters Bar building and bar for sale. We were getting older and the bar was taking an extreme amount of our time and we were ready to spend more time with our family and grandchildren. It was our hope that a buyer would come in and buy the entire operation and continue to run the liquor store and bar so that we could retire.

Unfortunately, after much time and several failed offers, we were forced to sell our building without the liquor license. Our books were still reflecting the hard knocks of COVID and the liquor store and bar were deemed too risky for most buyers. After our sale, we re-grouped and our intent was to move to a smaller location and operate only the liquor store, not the bar. We have searched for a building with good visibility and low cost to no avail. The cost of real estate has risen.

We currently have our license listed with Teri Cassidy of #1 Properties Commercial and are currently in talks with a potential buyer.

Thank you,
